## **About Delhi Skill and Entrepreneurship University**

The Delhi Skill and Entrepreneurship University (DSEU) has been established through an act of the Legislative Assembly of the National Capital Territory of Delhi, namely the “Delhi Skill and Entrepreneurship University Act, 2019” (Delhi Act 04 of 2020) to provide quality education in applied sciences and skill education. The University aims to equip students with world-class skill education to enable access to aspirational jobs and inculcate an entrepreneurial mindset and entrepreneurship. DSEU creates a win-win for the youth and industry by filling the existing gaps in skill training.

Building on the education philosophy of thinkers, such as Mahatma Gandhi and Vinoba Bhave, DSEU aims to integrate the use of the hand, head and heart for balanced living and engagement in lifelong learning. The focus is on teaching both self-reliance for lifelong independence and the wisdom toward nurturing and valuing interdependence.

The University wishes to change the existing paradigm of skilling, making skill acquisition aspirational and providing opportunities to all for skilling, up-skilling, and reskilling. Besides, DSEU will support and nurture entrepreneurs and provide quality mentorship to steer the entrepreneurial journeys of those interested, by providing incubation and hand-holding.

The University started with its inaugural Academic Year in 2021 and launched 15 Diploma programs, 18 Undergraduate programs (11 Flagship programs, BCA and 6 B.Tech. programs) and 2 Postgraduate programs across 13 campuses in Delhi. In the second academic cycle (2022-23), admissions for 15 Full-time Diploma programs, 2 Part-time Diploma programs, 15 UG programs, and 4 B.Tech. programs, 4 M.Tech. Programs, MCA and 4 Ph. D programs were conducted. In the third academic year i.e., 2023, the University is launching admission across 21 Campuses in Delhi in 17 Full-time Diploma programs, 12 Lateral Entry to Diploma Programs, Advanced Diploma in Automotive Mechatronics, 20 UG programs, 4 B.Tech. programs, 4 Lateral Entry to B. Tech programs, 4 M.Tech. programs, MCA, M.Sc. (Medical Laboratory Sciences), 4 Ph.D. and various other Short Term Certificate programs.

The University’s focus is on offering programs in close collaboration with industry partners, which gives our students an edge in a better understanding of the skills required by the industry. Students undertake live projects, regularly interact with domain-specific experts, and take up on-the-job training in organisations during their program work, simultaneously integrating the theory learned in the classroom with actual work experience. It is this model of “learning by doing” which becomes a win-win situation for all stakeholders involved. Further, we have a dedicated team for External Relations and Placements & Partnerships which have created a transparent and robust ecosystem helping recruiters and students make informed decisions.
