ABOUT DSEU & HI-NO-DE Partnership

The Delhi Skill and Entrepreneurship University (DSEU) was established in August 2020 by the Government of NCT of Delhi to equip students with world-class skill education to enable access to aspirational jobs and inculcate entrepreneurial mindset and entrepreneurship. DSEU aims to create a win-win for the youth and the industry by filling the existing gaps in skill training.

DSEU entered into an exclusive partnership with HI-NO-DE Foundation, jointly with Ichishin Holdings Co. Ltd. (HI-NO-DE – a duly empaneled Sending Organization) to implement the Technical Intern Training Program (T.I.T.P.) for the youths of India, specially Delhi.

India, with a vision to become the skill capital of the world, entered into this – “T.I.T.P.” agreement with Japan to transform the skill ecosystem in India by sending and accepting the youths from India to Japan thereby enabling Indian industries to imbibe the best practices of Japan. “T.I.T.P.” plays a key role in strengthening the bi-lateral relations between India and Japan. This program is also vital for India if it seeks to reap the demographic dividends at the optimum. More details on official website of National Skill Development Corporation (<https://nsdcindia.org/home-titp>).

The objectives of this (T.I.T.P.) program as well as DSEU match as if tailor-made for each other. DSEU has been established as a skill university and carries the mandate to skill the youths (of India) with the 21st. century skills and make them employable globally. Whereas Japan – as an already established brand in the world for advance technology, R&D, and futuristic skills, can offer to mind this gap.

The trainees who are selected to go to Japan under this (“T.I.T.P.”) program are not only assured with skills benchmarked to International Standards, would enjoy one of the highest remuneration in the world along with social security throughout their internship in Japan and also same back in India, corresponding to India scenario, after successful completion of their respective internships as the Japanese corporates move to invest in India.

FEW OF THE SALIENT FEATURES

- 1** A Government-to-Government 3 – 5 years internship program IN 85 job categories in Japan Aims to promotes international collaboration through transfer of skills, technology and knowledge
