13 - 14

World Youth Skill Day

The World Youth Skill Day was celebrated on July 15. There were various events organized by different departments showcasing the talent of our students. The students of pharmacy department also exhibited various types of self laboratory made medicines, creams, toothpaste etc. Students from all the departments of the Campus attended the Event. The students of the Spanish department also contributed to the celebration by presenting a spoof on Indian cinema's one of the most iconic film, "Sholay". This play was majorly in Spanish giving it a unique twist. The BBA-BFSI department performed two role plays depicting the corporate environment and the ethics one should possess to excel in the corporate careers. A roleplay on cyber security was also organized by the students of BCA department. It emphasized on the measures one can take to prevent from cyber frauds. MLT Department showcased various self medical examination techniques and also emphasized on its importance in the daily life.

Yoga Day Celebration

A series of Yoga activities were organized to celebrate the occasion of International Yoga Day. Sessions were conducted from June 6th to June 8th, 2022. Faculty members and students from across the campus participated passionately to celebrate the international yoga day held on 21st June by performing various Yoga postures such as Vrikshasana, Utaanaasana etc. The celebration ended with the asanas of Pranayama and Yognindra. These sessions helped in imbibing the value of discipline and mental peace in this current fast pacing world.

Samsung Solve for Tomorrow

The world-renowned firm Samsung launched a campaign called 'solve for tomorrow' as a part of its Corporate Social Responsibility (CSR). Under this initiative, a special session was organized. The students were explained the concept behind the idea of solve for tomorrow. In the session a glimpse of the rules and the process of enrolling in the competition was given to the students apart from the criterion of the prizes

Debate Competition on World Menstrual Hygiene Day

A Debate Competition was conducted on June 3rd on the topic "Should there be a menstrual Hygiene Day?". Students across all courses have enthusiastically taken part. Participants gave bold viewpoints and shared their personal experiences. Post Event, a Q&A session was conducted, in which judges asked questions from the participants. In the end winners were declared and was given an opportunity to represent Dwarka Campus at further debate competition's. Kaushal Purohit & Shiv Shankar Mishra backed the First & Second Positions.

Session With YHAI

A session on Youth Hostel Association of India was organized on 19th July 2022. The session was delivered by Mr. Rupesh Kumar Pandey, CEO, of the Youth Hostel Association of India. Mr. Rupesh discussed how he has climbed up the ladder of success by managing the entire organization. He has always supported the idea of "Sustainable Tourism" in India where the maximum cooperation has been received by multiple private and state governing bodies, local tourists, and students. He also explained how YHAI is structured for integrating hospitality and tourism to make it affordable for everyone. The attendees were overwhelmed with joy as the guest announced a 20% rebate on memberships from DSEU.

Swayam NPTEL Student Chapter

NSDC Student Chapter Approval

Activity Days for Degree & Diploma Students

Activity days were organized on July 14 and July 16. The two-day event had a plethora of activities such as Treasure Hunt, Short film Making, Balloon fight, Rangoli making etc. A "Start-up Quiz" was also organized which saw active participation from the student's side. Along with this various dance and musical performances were also organized allowing students to showcase their talent. Various sports events including badminton, relay race-etc were also there, encouraging students to develop a feeling and learn the importance of team spirit. At the end of the second activity day, an award ceremony was held to cheer all the position holders.

World Natural Conservation Day 2022

Every year, July 28, is celebrated as World Nature Conservation Day across the world. The objective of this day is to spread awareness regarding the preservation of nature and biodiversity and ensure a healthy environment, to maintain the survival of humankind. To mark this day, different activities were conducted such as a Clean-your-campus drive was organized in which all students and faculty members actively participated. An "Cleanliness and recycling" initiative was taken by the students of the BCA department. It involved taking a further step to segregate the collected waste and send them further to a recycling facility. Students also presented innovative artwork that were displayed in the foyer area in the form of creative bird feeders, eco-friendly planters and poster presentations.

Campus Drive by Health Skool

By Department of Pharmacy

Dr Anuj Modi, Dr. K. Mahender along with the coordinated efforts of all other faculty members of the pharmacy department. DSEU-Dwarka Campus (22 Students) and Meera Bai DSEU Maharani Bagh Campus (19 Students) attended the campus drive. Total 08 students (04 from each campus) have been selected by Healthskool.

It is a 20-month of a fully-funded residential training program on Software Programming which provides a guaranteed job. Students are enthusiastically participating in the programme.

Testimonials

Raghav Maheshwari

Instructor, DSEU- Navgurukul

At DSEU-Navgurukul every student is pushing themselves to their limits with the motive of making desired change in their life. After observing this level of dedication by the student's side, I also felt determined to give my 100%. Even if I am exhausted, the students push me and are always on their toes to learn. It genuinely feels that no matter how much time I dedicate to the students, they always have a never-ending desire to learn more. The cherry on the top are my colleagues who possess a brilliant mindset and work tirelessly to make sure that the students are satisfied with their academic progress. The end goal for all of us is to help them with our guidance in making their dream successful.

Aishani Gupta

Student, DSEU- Navgurukul

DSEU-NavGurukul has been great, I am able to convert my hobby into my passion. Throughout the past few months, I have made a lot of good friends, and have also been a part of the Student Council as a Discipline Coordinator for 3 months which has really taught me a lot. I have seen my quality of being a leader shape up here, and have also handled a lot of tough situations. The self-paced study program made this course more special and unique, building the habit of self-studying and finding solutions to the problems ourselves. With the support of our academic mentors, we always have our back strong. For me, our program managers were like our elder sisters with whom we can share everything. This program has actually given me an extended family and career with which I can definitely bring a change in society. Doing this course was really a good decision.

"ज़िन्दगी क्या कहती है"

थके हुए को जीना सिखाती है,
भटके हुए को राह दिखती है,
गिरे हुए को उठना सिखाती है,
कमजोर को हिम्मत दिलाती है,
ऐसे ही ये सब गुलज़ार बनाती है।

रंगों की बौछार है ये,
पर अमावस्या की काली रात भी है ये।
सूरज की किरणों से नयी उम्मीद जगती है,
रात की चांदनी से, अँधेरे पलों में रौशनी लाती है।
छोटे छोटे पलों को जीना सिखाती है,
कभी हसाती है,
कभी रुलाती है।

लाती है खुशियां हज़ार,
मीटाने गमों की परछाईया हर बार।
आसमान तक लैजाने वाली है ये,
और धम से नीचे गिराने वाली भी है ये।

प्यार करना सिखाती है ये,
रिश्ते निभाना समझाती है ये,
और कई बार जुदाई की राह पर भी ले जाती है ये।

रंगो का इंद्रधनुष है ये,
और मौत की सफ़ेद चादर भी है ये,
तभी तो: किसी ने ना जाना, असल में क्या कहती है ये।

Dr. Parul Kumar
Assistant Professor, BFSI Dept.

**Foreign language skills: A beginning towards understanding the world.**

Many of us in India are unaware of the cultures and traditions in various parts of the world, mainly because of the language barrier. We lose our interest in knowing multiple cultures of the world as the people living there do not speak our language. Because of our ignorance, we often stereotype things that exist in other cultures. Many hate crimes are committed due to a lack of understanding of various cultures. One of the ways by which these misunderstandings can be resolved is by learning foreign languages. It is one such solution that creates a bridge in understanding various cultures. Foreign language allows individuals to become cosmopolitan citizens since they can explore and understand different cultures. With the acquisition of a new language, individuals can interact with a wide array of people which they would not have contacted otherwise. The new language has the ability to create culturally aware citizens who are intrigued by the diversity of the world. It also has the ability to create a "melting pot society," which would give equal importance to various viewpoints and bring about changes for the well-being of society.

So, studying a foreign language comes with many valuable rewards as it empowers individuals in many ways. It not only helps in understanding various cultures but it opens new prospects for many in the job market. It allows an individual to have an edge in comparison to monolinguals. Employers wanting to expand their business network want to hire employees who are proficient in a foreign language in order to complete their overseas projects. Acquisition of a second language also helps the education system as educators can have students from diverse language backgrounds. To conclude, with a foreign language, individuals will have the opportunity to explore the diverse world around them and become compassionate towards people from different cultures.

Prince Kumar,
Students, BFSI Dept.

Mr. Akshay Kumar
Assistant Professor, Spanish Dept.

Dr. Ashima Sharma
Assistant Professor, Spanish Dept.

Aditya Arya
Student, BCA

This plant had both thorns and flowers.
However what attracted me were its flowers.
Small, yet extremely pretty!
The people you meet are like this plant. Let
their flowers be what makes you want to be
around them and ignore the thorns.

"सावन की पहली बारिश"

तू बारिश की मखमली बूंद सा,
मैं सावन की कढक ती चाय सी
तू सवेरे की किरण सा,
मैं चलने वाली ठंडी पवन सी
तू रात की चांदनी सा,
मैं सांवली सी शाम सी
तू दिन का थका हारा पंछी सा,
मैं चहकती एक बच्ची सी
तू ही जूनून जिस से मिले सूकून सा,
तू ही महज़ एक मेरे आखिरी सूखून सा

Tripti,
Student, Pharmacy Dept.

So first of all what is hypocrisy? Well hypocrisy is a behaviour in which somebody pretends to have moral standards or opinions that he /she doesn't really have. For Example, suppose in the past I said that engineering is useless. Engineers Be Like, "Toh Mein Kya karun Job chod dun ", But now I'm pursuing engineering myself! Cause, " Inko Kya Hi Pata Chalega " (Hypocrisy at its best!)

Hypocrisy has a really bad name in the society, and hypocrites get many tags such as Liars, Cheaters, Etc just to name a few.

But now I'll tell you why hypocrisy is so Underrated and how can we make use of it for the something good. Hypocrites be crying like: Finally! Someone understands us! My readers be like – Ahh! Not really. So what I want to say is that if you're being hypocrite in certain situations and share your thoughts (which in reality are not yours) then you might be able to stop yourself from spreading hatred and sadness. Note: This is only applicable in certain situations, so if you get in trouble that's not my fault so to simplify what I just said, suppose you are having a conversation with one of your friend about a topic say politics, and both of you have conflicting opinions, so for the time being you may not disclose your views (you can simply say that my views are neutral or as same as yours). So now what will happen is that you will be able to save yourself from a long debate which would've led to nowhere or might have ended up ruining your friendship! Let's look at a more extreme example – suppose you're having a conversation on crimes and lets assume that you are able to convince your friends that crimes are necessary to maintain balance and stuff like that. Now there are chances that your friend might become really insensitive towards crimes or the worst case is that he/she might themselves commit something unethical thinking that they are just helping in maintaining the balance! So, that's the point! You can help in not spreading negativity and avoid conflicts with the help of a little hypocrisy!
