INDUSTRIAL VISIT (AT CETPA INFOTECH PVT. LTD)

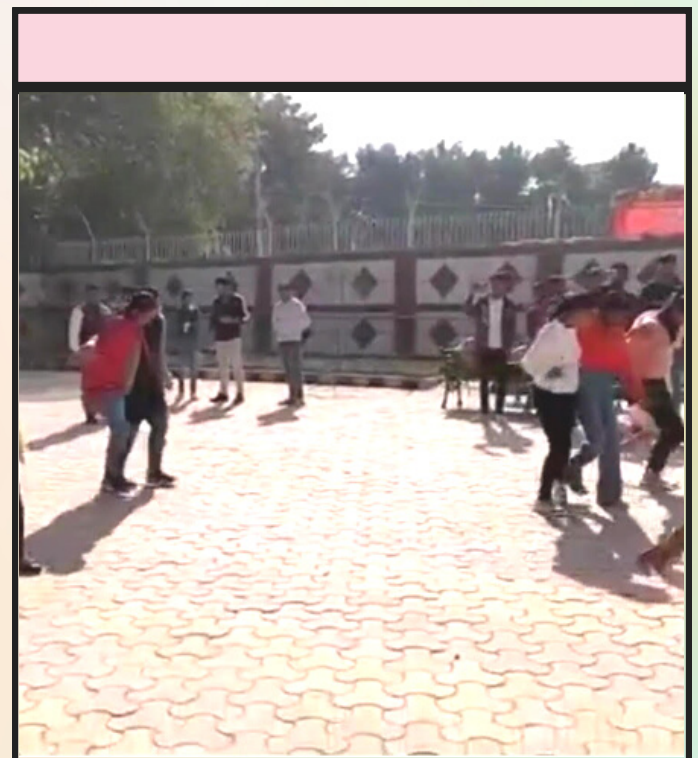

DSEU Rajokri Campus organized an Industrial Visit at CETPA Infotech, Noida for the 3rd Semester Students, where they learned about the industry's working environment. They were provided with hands-on knowledge of Android Programming, Introduction of web development and cloud computing. Students were allowed to visit the well-equipped labs and see IOT projects and on-going activities. Students enjoyed and responded positively. The students had a great experience during the industrial visit at CETPA Infotech. It's important for students to gain hands-on knowledge and see the practical applications of what they are learning in their studies. Visiting a well-equipped lab and seeing real-life projects and ongoing activities can help to give them a better understanding of the industry and the work environment. The students enjoyed and responded positively to the visit.

ACTIVITY DAYS

The event of Activity days was inaugurated by the Campus Director, Mr. Porusu Ramanaiah. The activity days started with a classical dance followed by various fun-filled activities like rope jumping, three-leg race, tug of war, etc. to make students of Computer Engineering IIIrd Sem feel light and recharge their minds with positive energy

The Activity Day was a successful event, with the opening performance by the classical dance and a variety of fun activities for students to participate in. The aim was to provide a break from routine and recharge their minds with positive energy. The event was conducted by Dr. Sunita Kumari Chaurasia and coordinated by other faculty members.

ACTIVITY DAYS

The event was held for two days, i.e. 23-24 December 2022, for 1st year students, and was filled with fun activities. On the first day, the students participated in small games such as Chess, tug of war, etc. After the games, the students showcased their talent. It was a great platform for the students to express their creativity. The focus was on teamwork in the form of games and offered opportunity to express their skills making it a well-rounded event for the students. The event was conducted by Dr. Rekha Mishra and

coordinated by other faculty members.

Their talent in a talent show. It was a great platform for the students to express their creativity and show their talent in front of their peers Dr. Rekha Mishra, successfully organized the two-day event with the help of students and teachers. The event included various fun activities, such as games and a talent show, where students could showcase their skills and talents. The focus on teamwork in the games and the opportunity to express themselves in the talent show makes it a well-rounded event for the students.

VISIT AT DU SOUTH CAMPUS

Connecting Dreams Foundation student's chapter leads students for taking the first step towards being change makers. Total 36 students from DSEU Rajokri Campus participated and experienced the process of creating user centric solutions to problem statements along with a day packed with relevant discussions by eminent personalities in the field of education and social entrepreneurship at SP Jain Auditorium DU South Campus on 23rd December 2022.

In addition to the above program, some recreational activities such as singing, dancing, etc. were conducted to make the students Global Change Maker. The event was coordinated by Mr. Shantilal Dawar

HP APTITUDE TEST (FINAL YEAR)

The HP Aptitude Test was conducted from 26th to 28th December 2022 for final year students of DSEU, Rajokri Campus. This event was conducted by HP India and Skill Academy in association with DSEU Rajokri Campus. The test was conducted to assess the aptitude, problem-solving, and analytical skills of the students. This test helped students acquire extra skills in job preparation. HP recruits the freshers as their first process of hiring. In this direction, the test was conducted in two parts – the written test and the practical test. The written test was based on topics such as mathematics, reasoning, programming, and English. The practical test was based on topics such as data analysis, software engineering, and web development. The students were assessed on their ability to solve complex problems and their ability to apply the concepts they have learnt in their courses. The result of the test will be announced soon.

PLACEMENT DRIVE (UNTHINKABLE SOLUTION)

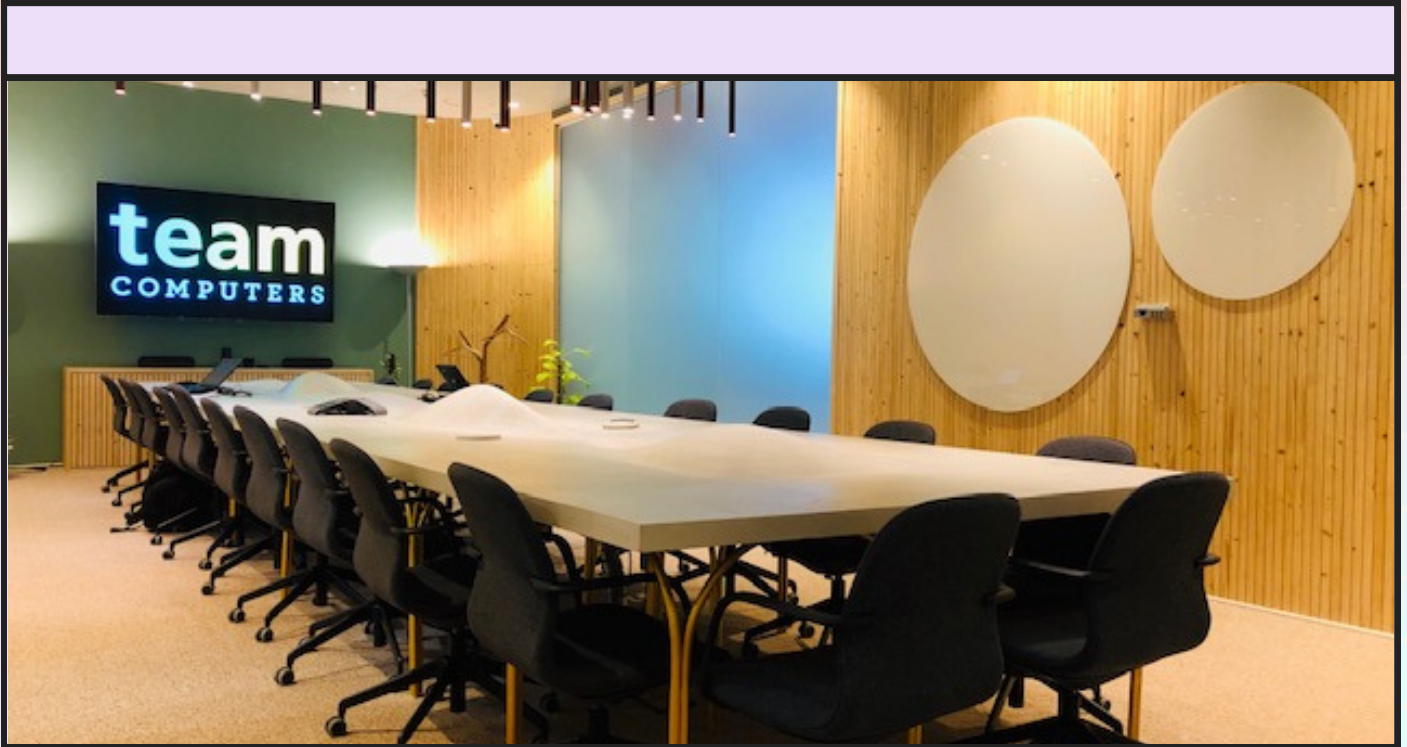

PlanetSpark, Gurugram organized prescreening and the organization conducted a meeting with the final year students for pre-placement talks. This will be followed by written test in the month of January-February 2023.

Unthinkable Solutions conducted Work-integrated learning program(WILP) for final year students of DSEU on 17th December, 2022 through which the students will be provided future talent sponsored education along with real-time work experience. A total of 22 students registered themselves for the WILP, a few students have qualified the test and some have been offered a job letter from Unthinkable Solutions.

PLACEMENT DRIVE (CETPA INFOTECH)

Cetpa Infotech walk-in placement drive on 16th December, 2022 for campus students was a great success. There was a huge turnout of students eager to secure a job with the company.

The drive was well-organized and the process was smooth, allowing candidates to apply in an orderly fashion. The team was also very friendly and approachable, making sure that all applicants were given the same opportunity to showcase their talents. The students were briefed about job roles, expectations and the selection process.

The above activities were coordinated and executed by Ms. Monika Garg, Training and Placement Officer.

SPOKEN ENGLISH (WORKSHOP)

The Spoken English certification course was offered to students of final year in the last week of December. Depending on the slot chosen, each student had the opportunity to take the course for a period of one week. The course aimed to help students develop their communication skills and help them become more confident speakers. The course covered topics such as grammar, pronunciation, parts of speech, and other language learning strategies. It also provided interactive exercises and activities to help the students practice the language. It covered various language learning topics, including grammar, pronunciation, and parts of speech, and included interactive exercises.
